The third MCI group Project client meeting will be held online at 5 pm on Thursday on 20th March 2025

Agenda

Chair: Jianghao Jin

Secretary: Jianing Dang

1 Apologies None.

2 Presentation

Description and evaluation of 3 popular models, Australian immigrant requirements.

2.1 Functional requirements and Presentations in Last Meeting

We present the models we found, 11 in all, including their strengths and weaknesses, and their applicability. After the meeting, we uploaded the PPT content to HA1/Docs/Report/Week 2 at main · MCI-Project-2025/HA1. After the meeting, the tutor asked us to complete two forms about the popular model and immigration conditions。

2.2 Problems and solutions

For the prevalence model and specific immigration information conditions, we have reviewed these information and summarized them in the table.

3 Requirements Elicitation

In this meeting, we will present information on the three pandemic models and the conditions related to migration and its necessary reasons. Our group divided the work to complete the two parts of the form:

1. Top 3 popular RS models

Three team members searched the literature on the specified model and recorded the content of the data.

2. Australian immigrant requirements

Two team members searched for the necessary conditions for immigration and listed them and added reasons.

4 Other Issues

- How can we access the database?

- How many samples could we have?

- Should we follow the method shown in the research totally?

- When do we need to build a prototype?

- What do we need to prepare for the pitch presentation?

Note: Next meeting will be held on 27th March 2025
